- JavaScript
- RxJS
- NgRx
- Ionic
- HTML5
- CSS3
- SASS
- WebSockets
- Jest

Architecture & Leadership

- Frontend Architecture
- Technical Leadership
- Mentoring
- Code Reviews
- Agile Methodologies

- Scrum
- Kanban

Game Development

- Unreal Engine 5
- Coherent Gameface

Enterprise Platforms

- RBAC / Authorization
- REST APIs
- CKEditor 5
- Google Maps API
- IoT Dashboards

Databases

- PostgreSQL
- MySQL
- SQL Server

Tools

- Git
 - Azure DevOps
 - Jira
 - Trello
 - AI-assisted Development (ChatGPT, GitHub Copilot, Claude, Gemini)
 - Prompt Engineering
 - AI Code Review & Validation
-

Professional Experience

Teracode — Frontend Developer / Frontend Lead

(2021 – Present)

Led frontend development initiatives, technical decision-making and mentoring activities across multiple enterprise applications.

Key Projects

IoT Monitoring & Alerting Platform

(React)

- Frontend Lead responsible for architecture and implementation decisions.
- Developed real-time monitoring dashboards and configuration interfaces for industrial and connected devices.
- Built workflows allowing users to define custom alerting and notification rules.
- Mentored developers and reviewed frontend implementations.

Medical Research Platform

(jQuery, HTML5, CSS3)

- Designed and implemented a role-based access control system with granular permissions.
 - Developed and customized document management workflows using CKEditor 5.
 - Built interfaces used by researchers and healthcare professionals to manage scientific studies and treatment documentation.
-

Nimble Giant Entertainment — Frontend Developer / Frontend Lead

(2023 – 2025)

Key Project: Multiplayer Extraction Shooter

(Unreal Engine, Gameface, JavaScript, HTML, CSS)

- Led frontend UI development and technical decision-making.
 - Developed the Main Menu, Inventory System, Backpack Management and multiple gameplay interfaces.
 - Built responsive UI systems integrated with gameplay and backend services.
 - Worked closely with game designers, UX/UI artists and gameplay engineers.
 - Helped define UI architecture and development standards.
-

Globant (formerly Grupo Assa / Parabolt) — Frontend Developer

(2017 – 2021)

Key Projects

Retail & E-commerce Ecosystem

Large-scale retail ecosystem composed of customer-facing, operational and logistics applications. (Angular, Ionic, Angular Material)

- Developed authentication, shopping cart and checkout workflows.

- Contributed extensively to the internal order management platform.
- Developed features for a driver application integrated with Google Maps.
- Large-scale retail ecosystem composed of customer-facing, operational and logistics applications.

Insurance Self-Service Portal

(Angular)

- Frontend Lead for the application.
- Developed claim submission and customer self-service workflows.

Conversational AI Platform

(JavaScript, HTML5, CSS3, Material Design)

- Participated in chatbot training and conversational flow design.
- Developed frontend interfaces for chatbot management and interaction.

Additional experience includes logistics management systems and mobile applications for the Argentine Professional Football League (LPF).

Education

National University of the Center of the Province of Buenos Aires
(UNICEN)

University Technician in Development of Computer Applications (TUDAI)

2016 – 2018

Systems Engineering

2007 – 2015

Languages

- Spanish — Native
 - English — Intermediate / Professional Working Proficiency
-

Additional Information

- Experience working in Agile environments.
- Strong collaboration with UX/UI designers and cross-functional teams.
- Experience mentoring junior developers and leading frontend initiatives.
